

LED cabinets and drawer lighting

DRAWER-600-4000

This rechargeable LED lamp can be used indoors in all places. Ideal for illuminating drawers, cupboards, passageways, under the bed, in bedside tables ... This LED lamp has a double effect with 2 different sensors. Either you use the IR sensor for drawer or cabinet lighting (sensitivity from 0,5cm to max 10cm). The LED lamp has a built-in magnet with which it can be attached to all iron carriers. Included is an iron bar with 3M tape to attach the LED lamp. Non-iron carriers can be attached. So you can mount everything without causing damage and without extra screws. This version is 60cm long, 2W consumption, 170lm, 4000K, can work up to 3 hours at 100% after a full charge. Standard there is also a charging cable USB included. High-quality aluminum housing (input 5V/1A).
